# Latte fx

Lattefx is a new quick online video editor for chrome and firefox

It looks like this (as of October 2019)
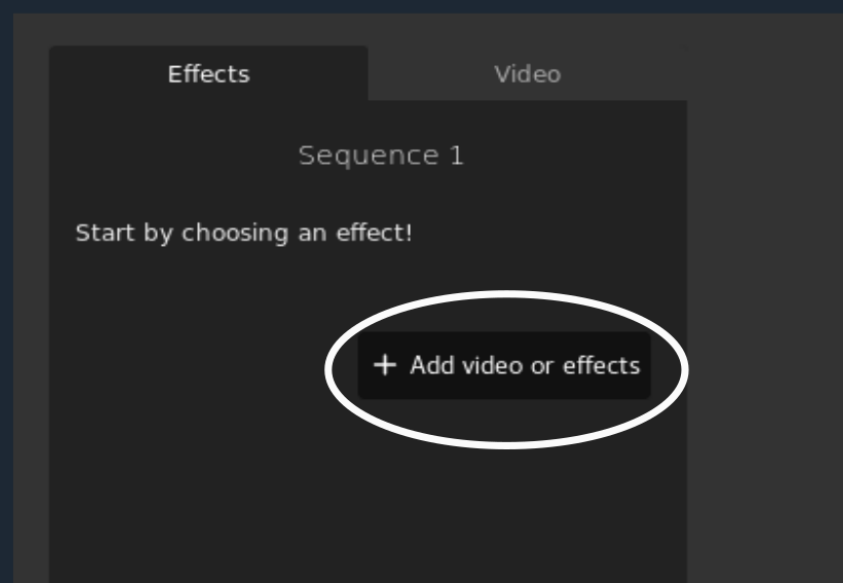

Adding a sequence

In lattefx, a sequence is a placeholder for a video, sound or effect

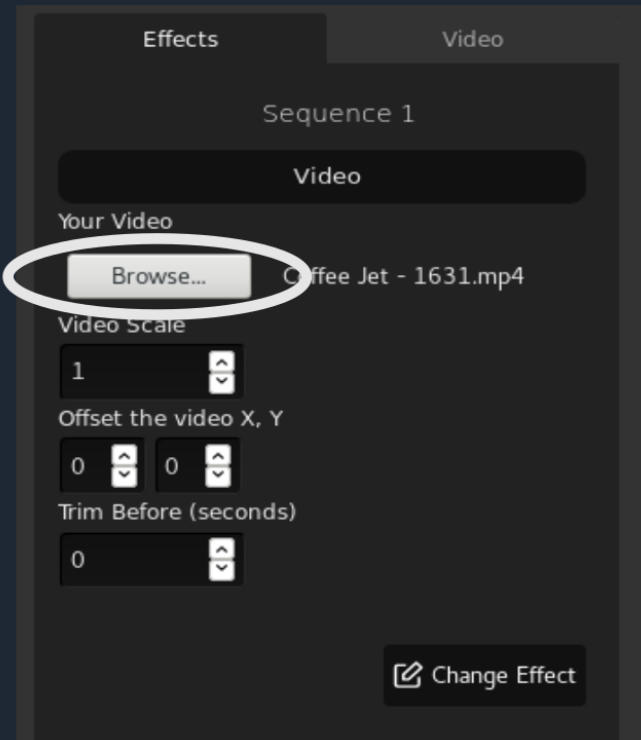

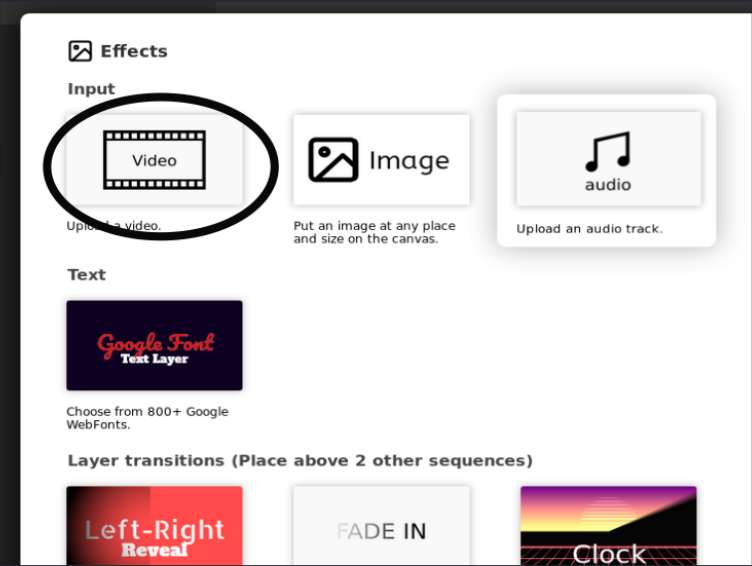

Selecting an effect or video for a sequence

Browse our plugins and let them guide you

# A good way to start is by adding a "video" effect

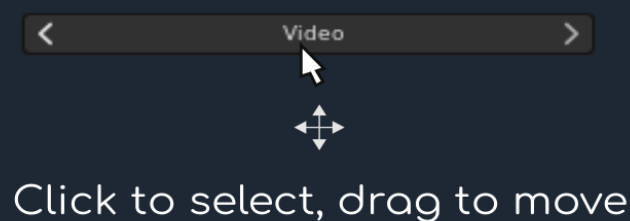

Then upload a video from your computer

Now that you added a video,

Let's get editing !

Removing time at start

Video

Trim video

Moving and selecting

Video

Click to select, drag to move

Removing time at end

Video

Adjust duration

Sequencer Shortcuts

CTRL + A   Select all

DEL   Delete

← →   Navigate time
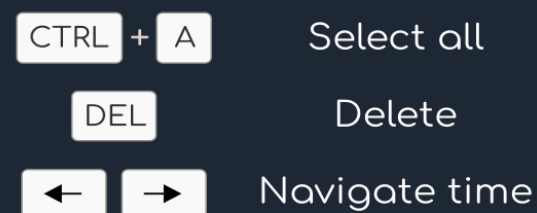

mouse wheel or touchpad scroll :
zoom sequencer time

Saving for later

Save

Download a working copy to modify your video later.

Download

Load

Load a .lattefx file

Browse...   No file selected.
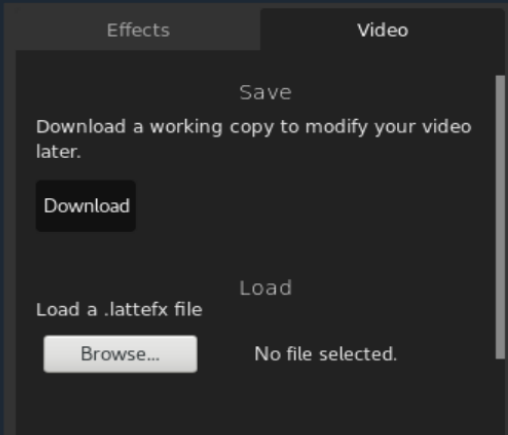

Download copy

Open a .lattefx file
